FIGURES AND FACTS PRESENTED IN AN ATTRACTIVE MANNER.

The Fluctuations in the Receipts of the United States Since 1865—Nearly \$400,000,000 the Past Fiscal Year—How It is Being Expended—National Notes.

WASHINGTON, July 9.—Statistics are supposed to be rather dry reading, but from the mass of figures which the close of the fiscal year furnishes are to be extracted some interesting facts. The receipts of the government in the year which closed July 1, were \$371,000,000. Only seven times in the history of the country have the annual revenues exceeded this sum, and in most cases this was when the country was recovering from the effects of the war and needed millions to pay the debt and the interest on it.

The largest "net ordinary" revenue that the country has had, exclusive of loans, was in the year 1866, when it reached, in round numbers, \$520,000,000. From that time on for a period of five years the revenue ran very high. Then it dropped off gradually, and a decade ago was down to \$300,000,000 a year. Then it began to increase again as the people prospered and the importations increased, and the manufacture of whisky grew great, until, in '82, it reached over \$400,000,000 again. Then congress got scared and cut down the tobacco tax, and made some slight changes in the tariff, and the income dropped off nearly \$100,000,000 a year. But it is beginning to increase again, and if it goes on increasing in the next year as it has done in the past twelve months it will be again up to \$400,000,000 a year.

Fifty years ago the income of the government was less than \$25,000,000 in the year. In the first few years of the organization of the present system nearly a century ago, say from 1789 to 1800, the income of the government was less than \$10,000,000 a year. Since that year it has never been below about \$250,000,000. Of the \$10,000,000,000 that have come into the United States treasury since the beginning of the present system of government in 1789, \$8,000,000,000 have been collected since 1865. Of the \$10,000,000,000 of revenue collected since 1879, \$6,000,000,000 came from customs, \$3,500,000,000 from internal revenue, and the remainder from miscellaneous receipts.

The expenditures of the government in the past year have been \$398,000,000. This includes the expenditure for interest, but not the payment made on the public debt. This is a little more than we have been paying out for ordinary running expenses for several years. Since the interest on the public debt was reduced the expenditures have not been so heavy. There were several years from 1865 down in which the interest alone was over \$100,000,000 a year, sometimes nearly \$150,000,000 a year. Now it is only about \$40,000,000 a year. The cause of the large expenditures just now is the pensions.

In the year just closed the amount paid for pensions was over \$75,000,000, being a greater amount than ever before paid in a single year. Yet there has been a pension list ever since 1789, and the amount paid out for pensions in that time is just about a round billion of dollars. The amount paid out for interest during the past hundred years is \$2,500,000,000; for war and navy, \$5,500,000,000; miscellaneous, \$2,000,000,000. Though our expenditures seem large, and they are large, they are not to be compared with the decade from '62 to '72. Then they ran more than \$750,000,000 a year, and in one year—1865—they were over \$1,000,000,000.

The public debt has at last got down to a round billion of dollars. That is to say the interest bearing debt is about at that figure. Of course there is besides this the \$341,000,000 of treasury notes or greenbacks as they are more popularly called, but as there is \$100,000,000 of money held as a redemption fund against them, and as nobody would think for a moment of demanding the payment of money for any of them, there seems a difficulty in recognizing them as a part of the debt.

Gen. Kosciusko's Will.

WASHINGTON, July 9.—The office of register of wills for this district is being overhauled and repaired. Among the old papers found in the search was an instrument made by Gen. Kosciusko on May 5, 1793. The paper reads as follows:

"I, Thaddeus Kosciusko, being just on my departure from America, do hereby declare and direct that should I make no other testamentary disposition of my property in the United States, I hereby authorize my friend, Thomas Jefferson, to employ the whole thereof in purchasing the negroes from among his own or any others, and freeing them in my name; in giving them an education in trades or otherwise, and in having them instructed for their new condition in the duties of morality that may make them good neighbors, good fathers or mothers, husbands or wives; and in their duties as citizens, teaching them to be defenders of their liberty and country, and of the good order of society, and in whatever may make them happy and useful, and I make the said Thomas Jefferson executor of this."

"T. KOSCIUSKO."

Resignation Rumor.

WASHINGTON, July 9.—It is understood here that as soon as Minister Lawton is received officially at Vienna, Mr. J. Fenner Lee, secretary of legation, and during the absence of a regular minister, charge d'affaires, will resign. His successor has been agreed upon and will be announced as soon as Gen. Lawton is heard from, notifying the department of his reception by the Austrian government.

Gone to New York.

WASHINGTON, July 9.—M. Romero, the Mexican minister, and Mrs. Romero have left here for New York. During the minister's absence Senor Cayoteno Romero, his brother and first secretary, will have charge of the legation.

Land Distributor Appointed.

WASHINGTON, July 9.—The president appointed Charles F. Larrabee, of Maine, as an agent for the distribution of lands to the Indians.

The Three Jurors Excused.

CHICAGO, July 9.—At the opening of court

this morning Judge Jamieson gave his decision in the matter of Jurors Tate, Ostrander and Parks, who it was charged were friends of ex-Warden Verrill, and were so prejudiced in his favor that they could not render a fair and impartial verdict. The court decided that the evidence given yesterday by the state was sufficient to warrant him in excusing the men, and Messrs. Tate Ostrander and Parks were excused.

A SECOND INVITATION.

Efforts Being Made to Secure the Presence of the President and Wife in St. Louis.

ST. LOUIS, July 9.—A mass meeting of citizens was held on 'change at 1 o'clock today. The doors were thrown open at 12:30, and a large crowd filled the hall. Mayor Francis presided and speeches were made by D. P. Dyer, Frank Geannie, president of the Merchants' exchange, and ex-Congressman Broadhead, urging the president to visit this city during fair week, beginning October 2. The following form of invitation was presented by the committee appointed yesterday, and unanimously adopted:

"The people of St. Louis assembled at a public meeting called for the purpose and held at the Merchants' exchange on July 8, 1887, respectfully and earnestly extend to the president of the United States, and to Mrs. Cleveland an invitation to visit the city and become its guests for the week commencing October 2, 1887. In doing so they beg leave to urge on the president their desire to give him a welcome, that will demonstrate the respect and love they have for him as a public officer and as a man."

The mayor of St. Louis and a committee of fifty, to be selected by him, are appointed to proceed to Washington to deliver this invitation to the president.

Pleuro-Pneumonia in St. Louis.

ST. LOUIS, July 9.—The health departments made a startling discovery yesterday in Henry Weasel's South St. Louis dairy. He keeps fifty cows and supplies a large part of the city with milk. Fifteen cows died during the last week of pleuro-pneumonia, and the remainder of his cattle are down with the fever. The milk was distributed until yesterday. Inspector Mulhall destroyed fifty gallons of infected milk, which he found on the premises. An investigation showed that a herd of Texas cattle had been driven through a pasture where Weasel's cows had been feeding, and the disease is supposed to have spread in this manner.

Judge Lochrane's Lost Papers.

CHICAGO, July 9.—Although the records of all the safe deposit companies in the city have been carefully scrutinized, no clue has been discovered to the hiding place of the valuable papers belonging to the estate of Judge A. O. Lochrane, the attorney for the Pullman Palace Car company, who died at Atlanta, Ga., nearly a month ago. The missing documents include a will, stocks and bonds, and several life insurance policies. None of the intimate friends of the deceased are able to throw any light upon the subject, and the indications are that a long and anxious search is before the heirs.

Scourge on Cockburn Island.

CHEROKEE, Mich., July 9.—The tug Messenger, from Cockburn Island, Lake Huron, reports a terrible scourge of some kind raging there and several persons dying daily. It broke out last week in the form of diphtheria, but the real nature of the disease is not known, as there is no doctor on the island. From Friday to Tuesday nine persons died. The inhabitants have become panic stricken and are fleeing from the island.

A Wolverine Sensation.

GRAND RAPIDS, Mich., July 9.—Gen. L. W. Heath, of Grand Rapids, was arrested on a capias issued at the instance of Robert J. Walker, who claims \$10,000 for the alienation of his wife's affections. Gen. Heath is a prominent citizen and politician. He succeeded Z. Chandler as member of the Republican National committee for Michigan, and has held the position for the last six years. He was released on bond for \$5,000.

River Washing Away a Town.

ATOKINSON, Kan., July 9.—Since yesterday noon about fifty acres of land in East Atokinson, Mo., have been washed away by the river. The school house, which a month ago stood a quarter of a mile from the river bank, was moved east, and the ground on which it stood is now in the river. The bank at that point is perpendicular and thirty feet high.

Wife Murderer Lynched.

PORTLAND, Ore., July 9.—Oscar M. Kelly, who shot and killed his wife at McCoy, Polk county, about six weeks ago, was taken from the jail at Dallas, at 2 o'clock this morning, by a mob, and hanged. On first hearing the mob, Kelly broke his lamp and used his neck, wrists and ankles, and was rapidly bleeding to death when seized.

Hopeless Love Drove Him Crazy.

NEW YORK, July 9.—Arthur Machado, a young Cuban, whose family is among the best known in Havana, was to-day committed to an insane asylum. Machado came to this country to learn English. He fell in love with a Delaware lady, who nursed him through his illness, and her refusal to marry him unbalanced his mind.

They Pay for the Fowl.

WASHINGTON, C. H., O., July 9.—Company H, at Camp Sheridan, has been living high, and the farmers are complaining bitterly about their deserted hen roosts. Yesterday twenty-one dressed chickens and turkeys were found in the cook's tent; that settled it, and the company was fined \$25 and costs.

Hunting Tennessee Moonshiners.

NASHVILLE, Tenn., July 9.—Deputy United States Marshal Spurner and Young have returned from a six week's tour of the Upper Cumberland counties in quest of illicit distillers. They made forty arrests but found no stills, the owners having removed and concealed them.

Socialists in the United Labor Party.

NEW YORK, July 9.—The United Labor party is annoyed over the ceaseless efforts of the Socialists to obtain control. The Socialists have elected twenty-six out of the seventy-two delegates from this city to the coming state convention at Syracuse, and ten out of the thirty-six delegates in Brooklyn. Union Labor men say the Socialists are urging the fight.

THE COKERS' TROUBLES.

EVERYTHING NOW QUIET, BUT AN EARLY OUTBREAK FEARED.

The Moment a Pinkerton Shot is Fired There Will Be a General Uprising All Over the Coke Region—The Convict Question in Georgia—Labor News.

UNIONTOWN, Pa., July 9.—Although quiet and peace reigns at West Leisenring this morning, there is a fear prevailing that trouble will occur. The excitement of last night occasioned by the report that four men had been killed and others wounded has subsided, but a most bitter feeling, growing with every day, is held by the workers against the officers on duty and the operations at large.

Some cokers who arrived here this morning assert that the moment a shot is fired by the Pinkerton men the whole region will rise up in arms, and to this end a thorough course of drilling is being introduced among the Hungarians. The "Huns" at the neighboring works have become more boisterous during the past twelve hours, but those in the immediate vicinity of the Pinkerton barracks are displaying a milder disposition. Five new men returned to work to-day at West Leisenring, making seventy now on duty. The strikers will soon be notified to vacate the company's houses, and trouble may then occur.

At Alice, Bessemer and Moorwood works the strikers, 500 strong, are camping out to watch the ovens, and express confidence in their ability to resist the Pinkerton men, also declaring that they will not vacate the company houses.

Twenty-nine men resumed work at Brown & Cohran's works, near Dawson, last evening. It is reported that over sixty men are working at Jintown to-day. At Coalbrook fifteen new men were employed yesterday, but only four reported for duty this morning.

At Everson, Pa.

EVERSON, Pa., July 9.—Thirty-seven delegates are attending the convention now in session here. The question of a compromise is under discussion. The men believe that they can now return to work quietly and subsequently arrange a scale of wages by which rates will be fixed for the year. This shows that the strikers now realize the hopelessness of a future struggle. It is thought here that the association officials will effect an orderly retreat and have all the men resume work at once rather than destroy their organization by breaking. The association men say that they will act independent of the Knights of Labor, leaving the latter to save themselves. The knights meet in convention on Monday. The last reports say 125 men are working at Jintown and everything quiet.

The Convict Question in Georgia.

NEW YORK, July 9.—A special to the Tribune from Atlanta, Ga., says: The convict question in Georgia is again to the fore, and sensational developments are to be expected at any moment. It is now the general opinion that the lease system will be abolished, and the convicts all put to work on the public roads. The abuses of the system have justified the Rev. Dr. Fenton's sweeping denunciation. Some of the convicts have been inhumanly treated. One man, who lost his shoes, was made to walk barefooted over hot bricks, and was afterward beaten with a leather trace strap because he complained of the keeper's cruelty.

In one instance the convicts were frozen so badly that some of them died and others lost the use of their limbs. In one case a convict's feet were frozen so that the toes dropped off. Badly cooked rations, spoiled meat, unclean and horribly ventilated quarters made the death rate appallingly high at times. Epidemics were, of course, by no means uncommon. Complaint was followed by additionally cruel treatment. Men and women were sometimes chained together, whites and blacks alike, and made to work from daylight until dark. Fevers and pestilence were not uncommon. These facts are gleaned from reports made by the physicians and from statements made by discharged convicts.

Powderly and the Grain Gamblers.

PHILADELPHIA, July 9.—General Master Workman Powderly, in the Journal of United Labor, pays his respects to the grain and stock brokers in a vigorous manner. Referring to the recent corners in coffee and wheat, Mr. Powderly says: "The lesson taught our members by the experience of the last six weeks is to keep their eyes open and to keep them turned toward the produce exchanges of New York, Chicago, and the other large cities, and the moment the grain or produce gambler stacks the cards, and announces that there is a scarcity in a certain article of food—that the prices go up in consequence—every member should resolve and resolve out loud, that until the unhallowed hand of the speculator has been removed from the control of the article in question, not a pound nor an ounce more than can be avoided will be purchased. This may be regarded in the light of a boycott notice—that is exactly what I intended it for, and had I the power vested in me to make the order imperative, I would order every member, so far as in him lies the power, to place an eternal boycott on every grain and stock gambler in the United States and Canada."

Switchmen Strike.

LINCOLN, Neb., July 9.—The switchmen, numbering seventy-five men, in the Burlington & Missouri yards are on a strike. The trouble originated over the appointment of Conductor Sherman as night master of the Lincoln yards. The switchmen claim the appointment should have promoted a yardman. Superintendent Thompson stated to-day that nearly all of their places had been filled by new men, and that none of the strikers would be taken back under any circumstances. Trouble is feared among the strikers, and an extra squad of police have been placed on guard.

Reducing the Force.

NEWARK, O., July 9.—An order has been received for the suspension of 25 per cent. of the working force employed in the Baltimore & Ohio railway shops at this place. The order also reduces the time of the remaining force to nine hours per day. Why the or-

der was a mystery, as there is any amount of work for all hands. One hundred and fifty men will be relieved from duty.

Striking Weavers.

SACO, Me., July 9.—Seventy weavers in the York mills struck to-day, because one of their number was discharged for putting on his hat and coat before the bell rang.

UNPROVOKED MURDER.

A Quarrel Over a Land Claim Ends in a Terrible Tragedy.

TOPEKA, Kan., July 9.—News was brought to this city of a most brutal and unprovoked murder of a respected citizen of Harper county, eight miles south of Mead Center yesterday. Some time ago a dispute arose between W. J. Carman and two men, father and son, named Woodruff, as to the ownership of a timber claim which lies near the farm of the Woodruffs. The Woodruffs contested Mr. Carman's claim to the land. Yesterday morning Carman went out on the claim with his team and commenced to cultivate the corn he had planted.

Roswell B. Woodruff and Menton Woodruff, each armed with a double-barreled shotgun, soon appeared and ordered him to leave the claim. When he refused the elder Woodruff fired at him, but the gun was so close that Carman succeeded in knocking the gun upward, and the charge only grazed the top of his head. Old man Woodruff then attacked Carman. While the fight was going on young Woodruff rushed up and discharged both barrels of his gun directly into Carman's body. Carman died shortly afterward. The Woodruffs were arrested and the feeling of the farmers indicates a probable lynching.

Killed Two at One Stroke.

PALESTINE, Tex., July 9.—Last evening during a terrific storm William Bowen and his sister-in-law, Miss Eunice McKinney, were returning home from a visit to some friends in the neighborhood, when they were caught in the storm and sought shelter from its violence under a large tree near the site of the "Old Posey mill." After the storm had subsided, and they not appearing, a searching party started out and found the unfortunate couple lying under the tree, both dead from a stroke of lightning. The bolt struck Bowen on the back of the head and stripped the flesh and clothing to the heels. Miss McKinney was burned from the breast the full length of the body down to the feet. The corpses were blackened and disfigured.

Big Real Estate Boom.

KANSAS CITY, Mo., July 9.—In a letter from San Francisco to a friend in this city, Mr. H. Stinson says: "The boom in real estate in the southern part of the state is still beyond all precedent. In many places people are simply crazy. At Los Angeles a few days ago, a piece of land was divided up into town lots, and the announcement made that at 8 o'clock next Wednesday morning, the sale would begin. Yesterday, just one week before the sale, people began to arrange themselves on the stairway of the real estate office, to get a chance to bid for choice lots. Seventy-five persons are now in a row, camping on that stairway and expect to wait there till next Wednesday."

Hope for the Convicted Anarchists.

CHICAGO, July 9.—It appears that the decision of the supreme court of the state in regard to the trial and conviction of the Anarchists has been agreed upon and the opinion has been written. It will not be promulgated until the September term of the court at Ottawa. The rumor current a week ago that a writ of habeas corpus would be granted the dynamite makers may, therefore, be founded on a knowledge of the purport of the decision. It is hardly a supposable case that any of the judges has permitted a hint of its contents to escape him, but they are obliged to employ copyists, and there may be other channels through which the information was conveyed.

Excitement Over a County Seat Removal.

MEMPHIS, Tenn., July 9.—The disturbances in Cahoon county, Mississippi, over the removal of the county seat from Friars Point, is much more serious than at first reported. A negro was murdered at Friars Point, Wednesday night, as the result of the excitement and more tragedies are feared. Gangs of men are circulating through the county, ostensibly to canvass for the removal of the capital to Clarksburg, but really bulldozing the people. There is no politics in the fight, but real estate interests are at the bottom of it. Money is freely spent, riotous scenes are enacted and everybody is demoralized.

Where's Margery Robinson.

RAVENNA, O., July 9.—When Margery Robinson appeared at Massillon last February and stated that she was the wife of Ed. Robinson, who was one of the fur robbers, not much stock was taken in her story. Since then, the man arrested as Harrington says his name is Robinson, and hence Margery is now a much sought lady. She will probably be able to give some very astonishing testimony.

Oil Discovery.

NEW ORLEANS, July 9.—The Times-Democrat prints this morning an account of the discovery of oil near Nacogdoches, Tex., where wells were driven by the New Orleans Petroleum Prospecting company. Six wells have been driven or bored, one 600 feet and another 300 feet deep, but oil is found at a depth of eighty-five feet. Nine barrels of oil from these wells were received here yesterday.

Mormon Miseries.

CHARLESTON, S. C., July 9.—Trouble is brewing in the upper parts of this state between Mormon missionaries and members of other denominations. Last Sunday a Methodist pastor was assailed in his pulpit by Mormon Elder Joseph Thorpe and several of his sympathizers and converts. Knives were drawn but no blood was spilled. Thorpe and six of his converts were arrested.

A Plucky Old Lady.

LOCKLAND, O., July 9.—Mrs. Stevenson, aged eighty, fell down her cellar steps yesterday and broke her arm. Dr. Herron set the injured member and then proposed to give her some powders to produce sleep. "No," said the energetic old lady, "I don't want anything to help me sleep; when I cannot sleep I stay awake, I always wish to have my head clear in the nighttime."

SATURDAY EVENING JULY 9, 1887.

It seems there are a few cranky members of the G. A. R. who haven't learned yet that the war was ended long ago.

The Carlisle Mercury hasn't heard of any Carlisle being converted by Colonel Swope's eloquent speech at that place.

If the fanatic members of the G. A. R. are not muzzled, they will not be long in getting that society thoroughly disliked.

The Democrats of Mason are not making much of a stir, but they should not fail to turn out and vote on the first Monday in August.

While it is quite true that figures do not lie, it is equally true that the fellow who quotes them sometimes does. For instance, Mr. W. O. Bradley.—Grayson Gazette.

A MINERALOGIST of New York has been up in Elliott County, this State, looking over the alleged diamond fields. The result of his investigation is not at all encouraging.

HENRY WATTERSON, the most distinguished editor of the South, has been compelled to quit work on account of ill health. He and his family will spend the summer at Block Island.

THE Union Labor party in five of the wards at Louisville met in convention the other day. The delegates fell out and fought like cats and dogs, and the meeting broke up in a small-sized riot.

The editor of the Carlisle Mercury recently spent some time in the Northwest and he says he wouldn't give two hundred acres of good blue grass Kentucky land for all of Wisconsin, if he had to go and live there.

A PARTY writing from Catlettsburg says: "You can count on Eastern Kentucky holding up her end of the string in the State campaign. Not only General Buckner, but the entire ticket, will receive the undivided support of the mountain Democracy."

The following distinguished Democrats are mentioned as candidates for Congress in the Lexington district: Hon. E. P. Settle of Owen; Hon. Attila Cox, of Owen; Hon. W. C. Owen, of Scott; Hon. John Carroll, of Henry; Hon. C. J. Bronston and Hon. W. C. P. Breckinridge, of Fayette, and Hon. Cassius M. Clay, of Bourbon.

THERE is a vividness and a frankness about western journalism that is absolutely captivating. A New Mexico paper, telling of the demise of Buck McGinnis, says, "his tried spirit was released from the pain-racked body and soared aloft at 4:30 Denver time. Death loves a shining mark and she hit a dandy when she turned loose on Buck."—Exchange.

At the August election many an ex-Federal soldier will cast his vote for General Buckner. One of them at Louisville, and a strong Republican at that, in a recent interview said: "Gen. Buckner went to the relief of Gen. Grant when he was in financial trouble; he visited him when he lay on his death-bed, and he was one of those who bore his body to the tomb. I do not propose to let an ex-Confederate Lieutenant General out-do me in the matter of forgetting the bitter memories of the war. Hence I shall vote for Gen. Buckner."

In speaking of Cleveland's letter declining to attend the national meeting of the G. A. R. at St. Louis, the Republican of that city says: "It is a manly, dignified and patriotic document. The President reviews the invitation, his verbal acceptance of it and his later declination, with candor and intelligence. The dignity of his declarations is the severest rebuke that could be made to the howling blatherskites who clamored against his presence. Mr. Cleveland declines to submit himself to rebuff by the partisan fanatics of the Tuttle school, because the honor and dignity of the Chief Magistracy are in his keeping, and he owes it to the people to protect them."

"As he well says, he should not be questioned for official acts performed in the discharge of the sworn duty of his great office. Hence he will not come. St. Louis will regret the absence of the Chief Executive of the Nation, and a majority of the Grand Army of the Republic, no doubt, will feel humiliated that the inconsiderate, rebellious and boorish conduct of some members of the order constrained the President, in defense of the dignity of his commission from the people, to recall his intention of mingling in their national gathering."

PUBLIC SCHOOLS.

A Handsome Increase in the Per Capita for Next Year.

The per capita paid by the State two years ago for school purposes was \$1.55. Last year it was \$1.65. For the year 1887-1888 it will be \$1.90. This is a handsome increase, and reflects credit upon the management of the public school system of Kentucky. A communication from Prof. Joseph Desha Pickett, Superintendent of Public Instruction, gives the following figures:

White per capita 1887-1888.....	\$1.90
Colored per capita 1887-1888.....	1.90
White school census 1887-1888.....	549,592
Colored school census 1887-1888.....	107,144
Total.....	656,736
Increase in white school census.....	10,637
Increase in colored school census.....	4,390
Total.....	15,027

Is it Really Consumption?

Many a case supposed to be radical lung disease is really one of liver complaint and indigestion, but, unless that diseased liver can be restored to healthy action, it will so clog the lungs with corrupting matter as to bring on their speedy decay, and then indeed we have consumption, which is scrofula of the lungs, in its worst form. Nothing can be more happily calculated to nip this danger in the bud than is Dr. Pierce's Golden Medical Discovery. By druggists.

An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity."

Dr. King's New Discovery for consumption is guaranteed to cure coughs, colds, bronchitis, Asthma, croup and every affection of throat, chest and lungs. Trial bottles free (Large size \$1.00) at the Drug Stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

REV. WYATT M. LAMBERT, of Kenton County, a minister of the Baptist Church, was married the other day to Miss Alice Trent, of Meade County. They returned home, and one hour afterwards the groom was a raving maniac. His mind had been affected for some.

THE Ripley Bee and Times, in speaking of the unveiling of the soldiers' monument, says: "The people of Maysville seemed to vie with each other in offering hospitality to their visitors, and the time passed off pleasantly. The monument is very handsome, and one that the citizens should be proud of."

SERIOUS CHARGE.

William Scholter, of Ripley, Arrested for Sending Obscene Letters.

William Scholter, of Ripley, O., was arrested Wednesday night and taken to Cincinnati by Deputy Marshal Costello and Postoffice Inspector Salmon. He is charged with sending obscene letters through the mail to Miss Alice Boyd, of Levan, Ohio. He was arraigned before Commissioner Kemper, and was bound over in the sum of \$2,000. Scholter is the proprietor of a tin and stove store at Ripley. He and Miss Boyd were friends from childhood. When he grew up he paid considerable attention to her, but her folks forbid him calling upon her. She became engaged to another gentleman, and it is claimed Scholter sent her the letters to break off the engagement. The above statements are taken from the Cincinnati Enquirer. Miss Boyd is the daughter of Captain C. W. Boyd, of Levan, Ohio, and is a sister of Mrs. Thomas Thompson, formerly of this city. She is well known here, having a number of friends in this city. Accused is also known in Maysville. The Government is not disposed to allow any trilling in such cases, and he will likely be made to pay rather dearly for his offense.

Not a Candidate.

We are requested by Mr. C. W. Bierley to say that he is not a candidate for Councilman to fill the vacancy in the Third ward, and will not be under any circumstances.

Teachers Elected.

The Colored School Board last night elected the following teachers for the ensuing year:

Mr. C. G. Harris, Principal.
 Miss Maria J. Power, First Assistant.
 Miss Bettie P. Smith, Second Assistant.

A Big Mortgage.

A mortgage from the Kentucky Central Railroad Company to the Metropolitan Trust Company, of New York, has been filed for record in Kenton County, Ky. It is for \$7,000,000 4 per cent. gold bonds issued by the railroad company. The whole line of the railroad and its branches, together with its franchises, privileges, rolling stock, &c., is covered by the mortgage.

Maysville's Fourth.

Says the Dover News: "The crowd of people at Maysville on the Fourth has been variously estimated at from eight to fifteen thousand. We acknowledge our inability to make a safe estimate, and not having time to spot each one, or the inclination to count them, we guess along with the balance and risk our judgement on ten thousand. If there were not that many people there it wasn't the fault of the newspapers at Maysville or surrounding towns. And if we don't make the people believe there was that many people there it will not be the fault of the newspapers either. We know to a certainty there were enough there to make the celebration and unveiling exercises a grand success in every particular—not marred by a single jar, except a shower during the unveiling ceremonies—and even that was hailed with joy, so badly was the rain needed. The success of this celebration should stimulate the enterprising citizens of Maysville to greater efforts. It shows what a pull together will do for a town."

An Adventure with a Lunatic.

Mr. Robert Tudor, the boot and shoe man, met with a rather startling adventure early Friday morning. Mr. Tudor lives on his farm near Maysville and occupies a sleeping room on the first floor of his residence. Friday night being very warm and close he left the windows up and shutters thrown open. About 4 a. m. he was awakened by a noise at one of the open windows and on glancing sleepily in that direction he was surprised to see a man in the act of climbing into the room. It is needless to state that Mr. Tudor became thoroughly aroused at once. He rose up in his bed and calmly told the supposed would-be burglar to let up and "get away from that window." The "burglar" did not pay any attention to this command other than to throw one leg over the window sill and attempt to pull his body on in. At this cool attempt on the part of the "burglar" Mr. Tudor sprang angrily from the bed and, grappling his man by the collar, he proceeded to oust him from the room. The "burglar" made no resistance, and remarked very indifferently that he had been trying to get in all night long. The man's behavior then began to attract Mr. Tudor's attention, and a few questions soon developed the fact that he had hold of a wandering lunatic. To say that the boot and shoe man was a little startled would only be putting it mild. He lost no time in turning his captive over to Constable Holiday, and resolved to sleep hereafter with his window shutters closed.

The lunatic was brought to this city by Constable Holiday. He gave his name as James Shelby, from Adams County, Ohio. Mention was made yesterday of his trial before Judge Coons, and commitment to jail.

SOL ROBERTSON and Bramlette & Gibson, of Carlisle, have been paid for the tobacco they had destroyed by the recent heavy fire at Louisville.

SARAH FEE GRAINGER has been granted a divorce by the court at Batavia, Ohio, from her husband, Wm. Grainger, of Augusta. She was allowed \$1,500 alimony.

AS THE "Fifthwarders" desire to play the best nine in Maysville, I hereby challenge them for a game of ball with a picked nine, game to be played Tuesday afternoon at 2 o'clock.

JOHN MANGAN, Captain.

THE unpleasant sensation to delicate eyes, experienced after reading or working for a considerable time, especially by artificial light, is entirely obviated by using Diamond Spectacles—every pair warranted or money refunded. For sale by Ballenger, the jeweler.

FRANKLIN COUNTY has voted \$150,000 to the Paris, Georgetown and Frankfort Railroad. At Frankfort the vote stood 2,425 for to 83 against the proposition. The majority in the county was not less than 1,600. Bourbon County will vote on the 16th to subscribe \$250,000 to the same road.

THE dinner at the Cynthiana barbecue Thursday was rather a huge affair. Upon a table two thousand feet long the feast was spread. There were sixty-five sheep, six heaves, two thousand loaves of bread, one hundred hams, a cargo of knickknacks, and one thousand gallons of burgoo. It is said there was not a drop of liquor on the grounds, and, in consequence, all passed off serene.

MR. J. C. MORRISON, traveling salesman for the Pearce Brothers' Milling Company, returned yesterday. He was in the railroad wreck at Fultz, near Ashland, Thursday on the C. and O. road. The train jumped the track, and the engine and baggage car was thrown down a steep embankment. Several passengers were injured, but Mr. Morrison was lucky enough to escape without any hurt.

DR. C. W. WARDLE leaves nothing undone to make his patients as comfortable as possible when they call to have an aching tooth pulled or a decayed one filled. He has lately had an ingenious contrivance, in the shape of a fan, put in his office. The fan is run by a water motor, and is so arranged that both the doctor and his patient will get the full benefit of it. It was gotten up by James Taylor, colored.

MR. LEVI CULBERTSON, an ex-Maysvillian, is the junior member of the firm mentioned in the following notice taken from the Kansas City Evening Argus: "Bird & Culbertson, abstractors, of Liberty, Mo., successors to the branch office of the Kansas City Abstract Company, began business a short time ago. Mr. Culbertson has, for a long time, been identified with the Kelly & Company's abstract office in Kansas City. These gentlemen are both young men, and possessing, as they do, splendid business qualifications, cannot fail to command a large business at Liberty."

Work Resumed at the Gas Well.

Work at the gas well was resumed yesterday. The contractors are busily engaged in reaming out the well preparatory to putting in the casing to shut out the flow of salt water. As soon as this work is completed the drill will be started again.

Old Point Comfort.

An excursion to Old Point Comfort, Va., and return will leave here by way of the Kentucky Central and Chesapeake and Ohio railroads next Monday morning. Tickets can be had by applying to Ficklin Bros. at the depot. Round trip only \$13.

Fine Prospect for Gas at Manchester.

The natural gas well at Manchester has been sunk to a depth of 1,050 feet. The last fifty feet has been drilled through a hard rock. The flow of gas is said to be so strong now that the contractors find great difficulty in keeping the drill running. The outlook is said to be excellent for striking a paying vein.

Personal.

Miss Alice Higginbotham, of Cincinnati, is visiting Miss Worick.

Five Hundred Dollars

is the sum Dr. Pierce offers for the detection of any calomel or other mineral poison or injurious drug in his justly celebrated "Pleasant Purgative Pellets." They are about the size of a mustard seed, there fore easily taken, while their operation is unattended by any gripping pain. Biliousness, sick headache, bad taste in the mouth, and jaundice, yield at once before these "little giants." Of your druggist.

LABOR TROUBLES ABROAD

THE SOCIALIST FEELING PREVAILING IN BELGIUM.

Outward Signs of Peace But a Disturbing Undercurrent of Feeling Existing Which is Sure to Break Out Among the Laboring Elements—Foreign News.

LONDON, July 9.—Outward signs of discontent having vanished from the iron and glass working districts and other localities in Belgium, the impression has gone forth that the current of events in that Socialist-cursed country will follow peacefully for a long time to come, but those who have had recent opportunities of observing the undercurrent of feeling and the power of the subtle influences at work in those districts do not share that belief.

Excess of population and over-production of manufactures within the last two years have wrought an effect upon the internal peace of that country, that many years of remedial effort will be required to remove and the Socialist leaders of Germany, France and Switzerland have taken full advantage of the popular feeling of depression to bring the machinery of their propaganda into action. The government is unceasing in its efforts to root out Socialism, but that baneful heresy has taken such a firm hold upon the fertile soil of the workingmen's imagination that it is next to impossible to eradicate it.

The recent strikes in Belgium were not in any way near as great a degree due to the concerted desire of the workmen to redress actual wrongs or to secure or regain additional or lost rights as to the insidious promptings of De Puisseaux and his lieutenants. These men are fugitives from Belgian justice and dare not be found within the confines of the kingdom; but they have in every community, indeed in every factory and workshop, efficient aids and effective methods of reaching the popular ear into which is poured streams of platitudes and high-sounding twaddle about the rights of the toiler; the oppression of the capitalist, and the tyranny of the state.

So thoroughly have the seeds of Socialism been sown among the working element that there may be said to be scarcely an artisan or a laborer in Belgium that as the result of the crafty work of Socialist leaders does not within his heart harbor his employer and the government by day and dream of utopian schemes involving the reversal of the social system of the country by night. The Communist confines himself to spasmodic ebullitions of wrath against a recognized form of government, and relapses into his normal state of inebriety and harmless vaporing until the next fit seizes him; the unkempt Anarchist contents himself with desultory demonstrations chiefly devoted to howls and demoniacal antics expressive of a desire to depopulate the earth, and returns to his experiments with explosives and beer, but the Socialist does none of these things. He is insinuating, artful, sagacious and determined, and is always at work. He never swerves from his purpose, and has the courage of his convictions. One Socialist turned loose upon a peacefully inclined and perfectly satisfactory community is capable of more harm than a hundred Anarchists, or twice that number of Communists.

Russia's Patience Exhausted.

ST. PETERSBURG, July 9.—The Novo Jemaja, a political journal of this city, says that the election of Prince Ferdinand, of Saxo-Coburg-Gotha, to the Bulgarian throne exhausts Russia's patience. Austria will not succeed in her aspirations and Russia's future actions in regard to the election may seriously inconvenience Austria.

Thousands of People Drowned.

The Last Galesburg Bank Robber.

GALESBURG, Ill., July 9.—Judge Glenn instructed the jury in the Carroll case this forenoon. The jury was out two hours. At noon they returned a verdict of guilty, and fixed punishment at twelve years in the penitentiary. Carroll's attorney made a motion for a new trial. He is the last of the celebrated Farmers and Merchants bank robbers to be punished.

A Woman's Bare Fortitude.

GALENA, Ill., July 9.—Last evening Mrs. Bantach, of Sand Prairie, while cleaning a horse-power feed mill, got her hand between the rollers, and it was horribly crushed. Mr. Bantach stopped the machinery, and, unable to draw his wife's hand out, cut the mangled member from the arm at the wrist. Mrs. Bantach drove to town and submitted to amputation of the arm by physicians, and returned home over a rough road, riding fourteen miles with the mercury nearly 100
